

WELL, KINDER SORTER.

Polk Johnson.—There seems to be a decrease among the chickens this year, for which reason we decline to bring out our roosters, as we have usually done after an election.

+

A CHEERFUL VIEW.

New York Evening Post.—Edward Atkinson is of the opinion that the repeal of the Silver Purchase law alters all the conditions of National finance to such a degree that the expected deficit in the revenues will probably not occur.

+

HIS WHISKERS NEEDS TRIMMING.

Frankfort Capital.—Craddock is still publishing *World's Fair Notes* in *The Paris Kentuckian-Citizen*, but omits to confess in the latest edition that he is a miserable sinner. This is an oversight that should not be too often permitted.

+

SOLD 17,800 TICKETS.

Chicago Journal.—The prize given to the fair salesmen who sold the largest number of tickets on Chicago Day—the rather modest one of a box of cigars—was won by Charles Decker, an old circus ticket seller. He sold 17,800 tickets that day.

+

ONE SENATOR'S HOURS OF EASE.

Washington Capital.—A Senator might have been seen on a certain night last week holding out great lumps of eight feet above the floor for young women to kick at. Fact is, he was seen; he paid \$30 for the fun; but that isn't much when you consider that eight feet is a pretty good kick.

+

FISST IT DOES.

New York Press.—For the first time in many years international revenue receipts during the past month exceeded the customs revenue. The excess was nearly \$3,000,000. This does not mean that American men are using more whisky and tobacco probably, but only that American women are wearing less fine foreign toggery.

+

SAID TO HAVE BEEN 193 YEARS OLD.

Chicago Journal.—José Francisco Cortes, who died last week in Morelos, Mexico, is believed in that town to have been 193 years old, and they point to an entry in the local court register to prove it, but as he left a son 60 years old, the probabilities are that José and the register and a deceased father or grandfather of the same name have become somewhat mixed up.

+

THE USELESS LETTERS OF THE ALPHABET. *Boston Transcript*.—The letter "q" is a superfluous alphabetic character—a non-descript of the word sort and of no real value, excepting in writing them out of the Chinese word signs would be. It never ends an English word, and cannot begin one without the aid of the letter "u," being invariably followed by the last mentioned letter in all words belonging to our language.

+

HOW GIRLS KISS.

New York Commercial Advertiser.—The next time you happen to see two girls kiss each other just watch and notice how they do it. It is a very interesting study and you will be surprised to discover how many methods there are of kissing. A girl usually kisses another girl because she feels that it is her duty and one of the things she can't evade. Sometimes she does it when there's a man around, for it is well to set him a good example.

+

NATURALIZATION A FANCY.

New York Press.—"Is this a Monarchy or Republic?" asked one of the Judges of the Court of Common Pleas in New York the other day of an applicant for citizen's papers.

"Democrat—Democrat," said the applicant, hastily.

"He has the right idea," suggested the Judge, and he was admitted.

"Who is the President of the United States?" was asked of another applicant, an Irishman, in the Superior Court.

"George Washington," he answered promptly, and then, correcting himself:

"Oh, no; it wasn't George Washington—it was—er—he was President when I came over, but I don't know who is President now."

He was admitted.

Under the present system of administering the laws citizenship has become so cheap a thing that only a small proportion of those who apply for the honor in this city pay for their own papers. Those pernicious institutions known as naturalization bureaus pave the way for all sorts of abuses. Tammany Hall has full sway in the County Courthouse, this fall, as the Republicans did not establish one of these bureaus this year. Tammany agents, with checks to pay the fees of those wishing to become citizens, are all about the corridors of the building. As a result, nearly every man who becomes a citizen in this month is a Tammany man.

The Business Way!

The business way to advertise is to take space by the year, thus pains with your advertisements in making them attractive, and change them at least as often as once a month.

You may think there need not be advertising.

We have never seen that time.

Use the dull seasons for looking over your stock and running off that which is becoming out of style or unfashionable, and giving bargains.

If you have space by the year, it costs you no more, and you can make it profitable by converting unsaleable goods into money, and reinvesting the money in those things which are salable.

Where is That Banner Now?

Greenback (Indy) Review.—During the last campaign the Democrats of this city displayed a banner in their processions bearing this inscription:

VOTE FOR GROVER CLEVELAND
AND ANOTHER
\$1 A BUSHEL
FOR YOUR WHEAT.

A liberal reward will be paid for that banner at this office, and no questions asked.

It would not have been so bad if CLEVELAND had sent VANALE to Hawaii.

"SOUTHERN" JAMES SIMPSON's comment on the late election: "The fools are not all dead yet."—*Bulletin*.

Every body knows that all the fools aren't dead yet. The majority of people in the United States think they are all in the Democratic party in Ohio—those who tried to beat BILLIE McKNINLEY with that little pie-faced LARRY McKNINLEY.

Out of 649 applicants for the position of editor of *The Dover News*, Congressman Payne has done his best to recommend A. F. Curran, editor of *The Dover News*, for the place. There is one thing that bothers us—we wonder if Brother Curran isn't trying to hog everything in sight. The next thing he wants is to be the next T. F. V. F. to stop there, which will be done.

IN WASHINGTON.

The President Resigned as **Mysterious as His Departure.**

WASHINGTON, Nov. 17.—President Cleveland, accompanied by Secretary Lamont, arrived in Washington at 8:45 o'clock. They were welcomed over the Pennsylvania railway. The president was at once driven to the white house and Secretary Lamont to his home.

For some reason or other the employes about the white house endeavored to obtain an interview with the president, especially after his arrival. The president's arrival was so sudden that strange and unwelcome rumors began to circulate.

The president's appearance gave the lie directly to all the stories that he was ill. In the afternoon he received a call from his physician, Dr. Thurber, who informed him that he was well and looked as robust as at any time in his life. He began his work at the white house as if much benefited by a day's rest from exertion. He was seen about the house as usual, and it was evident that he was in good spirits. It was decided to clear up the accumulated business Thursday morning before taking up some pending appointments.

The president's disappearance gave the lie directly to all the stories that he was ill.

Washington, Nov. 17.—The Daily Northwestern publishes a full description of a new submarine boat just completed here and which has been under trial for the past few days with complete success. The boat is steel shell, cigar-shaped, fifty feet long and eight feet in diameter with a dome in the center, which is hermetically sealed when in operation. Electric machinery by storage batteries propels the craft, lights it and raises and lowers it in the water. There are also machinery and chemical apparatus for manufacturing air for twenty-four hours.

A 29,000 candle-power search light swings in the machine, which has lenses for all uses. All the machinery works automatically. The craft can descend and falls and speeds under water like a fish. Much of the apparatus came from France. Several people here have been down in her during her successful trials and have been greatly impressed by the speed and power of the boat. Its speed is pronounced a marvel of inventive skill by all who have seen it. The inventor and constructor is Richard Raddatz, a young man of this city, who has spent years in study and work upon it.

CHILD MURDER.

A Baby Placed in Boiling Water, and Its Dead Body Buried in the Yard.

CLEVELAND, O., Nov. 17.—At 5 o'clock Thursday morning Detective Granger arrested a white woman, Mrs. Mary O'Connor, in the back yard of her home, a notorious resort, and placed her in the county jail. She is charged with murdering the child of Kittie Harris.

It is alleged that the baby was killed by poison, but whatever it and the boy buried in the back yard, Mrs. O'Connor's mother was arrested, as well as two inmates of the place. The confession of Kittie Harris implicates a well known doctor. It was in the Smith depot that Jessie Howard met her death a few days ago.

Kittie Harris is a little woman and bears the impress of a hard life on her face. When asked to tell all she knew she shuddered and said: "I don't know! Oh! it was awful! It moaned so," and the girl burst into tears again.

She added fiercely: "Oh, that life. If I had known she was going to kill my baby, she would never have lived a moment."

Kittie said Dr. Foggy performed the operation.

IRON AND STEEL.

Better Report in Manufactured Metal—Steel Rail Cut.

CLEVELAND, O., Nov. 17.—The Iron Trade Journal says: "Large cuts in steel rails than have been known since the quiet shading of two months previous; continued complications in valley wage negotiations; the probability that western steel mills will close down unless a 10 per cent reduction is granted by the manufacturers; the probability that the features of the week in iron and steel. The better feeling of a week ago, based on the belief that the election would insure a hedging from radical anti-tariff plans, continues to make itself felt. In finished materials there is probably better hope as far as volume is concerned, but any hope of early advance in prices is out of the question, in the face of vast mill capacity still unoccupied."

Blind Davidson in Jail.

CANTON, O., Nov. 17.—Curtis Davidson, the man who so bitterly outraged the public by shooting his wife, nee Anna, and his son, was brought to this city and placed in the county jail by Sheriff Krider and a number of assistants. He was placed in an ambulance when the train arrived here and was hurriedly driven to the jail. He was held incommunicado for several hours, and was not allowed to speak with his wife or any one else.

He was placed in a cell in the female department and a guard placed over him in order to keep him from again attempting suicide. He makes a denial of any knowledge of the crime he is recovering rapidly and will soon be able to have a hearing.

Blind Davidson in Jail.

New York, Nov. 17.—The Herald says: From a source which may be fully relied on it is learned that the steamer Boston, of the Yarmouth Steamship Line, of Boston, was bought by Chaplin & Flint & Co. for \$32,000, the vessel having been used for the transport of rubber by the Brazilian government. She will be brought to New York to be fitted out.

A Foster Victim Brings Suit.

FORONIA, O., Nov. 17.—Martha Rhodes has brought suit against J. B. Gorham, of Foron, for \$10,000 damages. She claims she was injured in the safe of Foster & Co. at the time of the failure. Other actions of a similar character are promised.

ACCIDENTAL DEATHS.

Caused by Carelessness.
The majority of people die sooner than they should. Evidence of this fact is growing daily. Wariness and carelessness are a companion to life. It is due to unthinking conditions of living—neglect, abuse, want." Dr. Stephen Smith, on the same subject, "Man is born to health and long life; disease, accident, and death are the enemies of man, are accidental, and both are preventable by human agencies." This is almost invariably true of death resulting from heart disease.

Carelessness, in the use of tobacco, coffee, tea, or other stimulants are generally the causes of this difficulty, and indifference to its progress results in sudden death, or long suffering, and death by it. In the progression, it can be seen that many prominent and hundred of persons in private life die from heart disease every day.

If you have any of the following symptoms—shortness of breath, palpitation, irregular pulse, fainting and smothering spells, pain in shoulder, side, or arm, swollen months, &c., you will find treatment immediately for heart disease, and the discoveries in this direction are due to him. His New Heart Cure is absolute, the only reliable remedy for the cure of heart disease as is proved by thousands of testimonials from grateful persons who have used it.

James A. Paine, of the Terry, Pa., Lawyer, states that after recovering from three months of a grippe, I recovered on the street under a tree, and was unable to walk across my room, and my pulse beat from 120 to 140. I had a New Heart Cure, and at once became stronger. After six bottles I was well again. My pulse ranged from 80 to 100, day, my pulse ranging from 60 to 80. Dr. Miles' pills 25 cents. Over 20 years Dr. Franklin Miles, the heart specialist, has made a study of heart disease, its causes and cure, and of the leading discoveries in this direction are due to him. MORE DYNAMITE

Somebody at Marseilles Got in
His Work.

Gen. Mathelin's Residence Partially
Wrecked by Bombs.

The Walls of the House Tumbled Down—A
Great Fright Given to Seminary Girls—
Windows of Houses in the Vicinity
Wrecked—No One Reported Hurt.

MARSEILLES, Nov. 17.—This city was thrown into a state bordering on panic Wednesday night by an attempt to blow up the residence of Gen. Mathelin, commander of the Fifteenth Army corps, whose headquarters are in Marseilles.

The house occupied by Gen. Mathelin was surrounded by high walls, and about noon yesterday all the places of refuge were packed. Sentrys were constantly pacing their posts, and no one is allowed to approach the place unchallenged.

Notwithstanding these usual military precautions, some one managed to pass the sentries without suspicion and placed in the room in the house occupied by the orderlies some sort of an infernal machine.

At midnight the occupants of the house and every one in the vicinity were aroused by a terrible explosion that shook the houses to their foundations.

Everybody rushed into the streets to ascertain the cause and the streets near the division headquarters were soon filled with an excited throng, many of whom were only partly dressed.

After the excitement subsided the police made an investigation. It was found that the explosion had made a breach in the walls, and that a large quantity of debris had been hurled through the guards' room.

Though the orderlies were in bed at the time, none of them were injured. The windows of all the houses in the vicinity were smashed.

A ladies' school adjacent to the headquarters sustained the most damage. All the inmates of the school had retired, and when the explosion occurred they were thrown into a state bordering on frenzy.

Many of the girls and women went into hysterics, and medical assistance was required to restore them to their senses.

The police found the lid of a tin case that is believed to have contained dynamite. They also found an unexploded bomb in the corridor of the general's residence.

An Italian has been arrested on suspicion of being the author of the outrage.

Gen. Mathelin was absent in Paris at the time of the explosion.

One of the sentry boxes close to where the bomb had been placed was blown in pieces.

Two men have been found who say that they saw the man who committed the outrage sitting on the steps at the principal entrance to the building a short time before the explosion occurred.

The hunt for suspects is exciting much interest. It is thought by many persons that the outrage is an outcome of the recent strike of tram car men here.

At that time soldiers were employed to protect the company in running its cars, and it is believed that the outrage was caused by some revengeful striker.

Marcellus.

A Man with Both Legs Crushed Performs a surgical Operation On His Own Body.

PITTSBURGH, Pa., Nov. 17.—Daniel Beardson, an employee of the Black Diamond Steel works, was cut over by an ax in the Junction railroad yard Wednesday evening. One of his legs was cut entirely off, and the other hung by mere shreds of flesh. The severed leg lay between the rails, while the crushed member lay on the ground. Foraging assistance arrived Beardson recovered from the shock sufficiently to realize the seriousness of the accident. With tears in his eyes, he looked at the severed member and then at his other torn and lacerated leg. He put his hand in his pocket and took out a knife and cut the remaining shreds of flesh and laid the limb beside the other. When Dr. Clark arrived he ordered his removal to the St. Francis hospital, where his clothes were dressed. The physicians say there is a possible chance of his recovery.

The injured man is 39 years of age and married.

MEXICO.

A Growing Revolt That Will Cause Some Trouble.

Gen. McCook, U. S. A., Orders His Troops to the Border.

The Rebel Leader in Command of an Army of Thirteen Thousand, Which is Being Constantly Augmented—They Will Carry on a Guerrilla Warfare.

EL PASO, Tex., Nov. 17.—Information from the refugees now coming in from Palomas is to the effect that a small detachment of revolutionists remained there while a large small detachment was in charge of Ascension. The main body is now supposed to be at Corralitos, but the reported capture of that place can not be confirmed on account of its distance from telegraph lines. The refugees say that the roads for 100 miles are now held by the possession of the rebels, which gives them complete knowledge of the approach of the federal troops against whom they are carrying on guerrilla warfare. The federal troops are expected at Ascension Friday.

The revolutionists are evidently preparing to lead the federal troops into a trap, which becomes plain from the fact that the main body of the revolutionists are now in the state of Coahuila, in the state of Guerrero, further south and have under their command some 15,000 men, though they are poorly equipped. Official organs of the revolutionists published along the border state that the rebels will again soon begin operations on the southern border, or perhaps even earlier than last year. These concerted outbreaks all over the country are expected to lead to a general uprising in a short time.

DENVER, Col., Nov. 17.—Gen. McCook, commander of the department of Colorado, has ordered his troops under his command to remain on the border of trouble. These consist of two troops of cavalry from Ft. Grant, where they have been engaged at camp construction work, and two troops at Ft Bayard who were ordered out Wednesday night. Said Gen. McCook:

"They are instructed to guard every man's interests, and prevent any violation of the neutrality of the United States. I have received a dispatch from Col. Bliss, assistant adjutant-general of the department of Colorado, to the effect that revolutionists have taken Palomas, a few days ago. Gen. Terrell is the leader of the revolutionary forces in the state of Guerrero, further south and has under his command some 15,000 men, though they are poorly equipped. Official organs of the revolutionists published along the border state that the rebels will again soon begin operations on the southern border, or perhaps even earlier than last year. NEW YORK, Nov. 17.—The report of J. F. T. Tillman, who on the 1st of Oct. last received a commission as a colonel, as register of the treasury, is just made public. It necessarily covers only the period during which Mr. Tillman's predecessor held control, but the tabulated statements presented contain much information of interest.

To foreign holders of United States registered bonds, Register Tillman says:

"The term 'foreign' is applied to the holder who is not a citizen or subject of the United States, or to the person whose interest does not extend beyond the borders of the country in which he resides."

To foreign holders of registered bonds who, for various reasons, were supposed to be of foreign nationality, were compelled to do so, amount to about \$10,000,000, or only \$3,000,000, upon the foreign ledger."

The same, Mr. Tillman thinks, is much more the exact truth than the extravagant guesses which have often times been made and printed. No attempt was made to estimate the amount of United States bonds held abroad.

Attempted Assassination.

MENOMINEE, Wis., Nov. 17.—Some unknown person made an attempt to assassinate District Attorney Anderson. He was sitting at home near the front window when some one on the outside fired a pistol shot at him but missed. There is no clue to the perpetrator.

Waysmouth Is Happy.

PORTSMOUTH, O., Nov. 17.—The initial run of the Portsmouth Electric railway system was made Thursday afternoon. The board of trade arranged an appropriate reception, which was rendered on the upper square. The city was beautifully decorated.

Jerry Rock Very Low.

VIRGINIA CITY, Nev., Nov. 17.—The rumor that Gov. James W. Nye, ex-secretary of agriculture, is dead is untrue. There was no change in his condition Thursday morning. He is quite weak. He was operated on last week for gravel by ex-Surgeon General Hamilton.

Second Death.

CINCINNATI, O., Nov. 17.—Complete official returns on the McKinley and Neal vote shows that McKinley received 363,336 and Neal 363,339, making the governor's plurality over Neal \$1,007.

The Indians Reunite.

CINCINNATI, Nov. 17.—The Chicago Wrecking Co. captured the Indiana state building at the fair Thursday evening for the sum of \$1,200. This covered the cost of gravel.
